

USER MANUAL

VMS FOR PC

VMS PARA PC

English / Español

ENGLISH SECTION

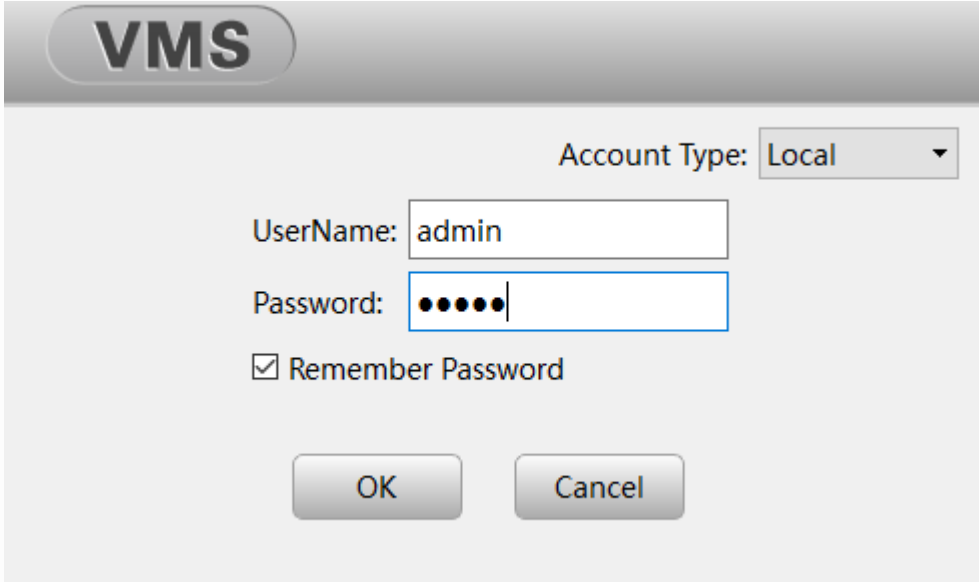

You must enter into the application with the following data:

Account Type: Local

User Name: admin

Password: admin

If you want your PC to remember these fields automatically, activate the Remember Password option.

A screenshot of a Windows-style dialog box titled "VMS". The dialog box has a grey header bar with the text "VMS" in a rounded rectangle. Below the header, there are three input fields: "Account Type:" with a dropdown menu showing "Local", "UserName:" with a text box containing "admin", and "Password:" with a text box containing five black dots. Below the password field is a checkbox labeled "Remember Password" which is checked. At the bottom of the dialog box are two buttons: "OK" and "Cancel".

Password: ●●●●●

Remember Password

OK Cancel

Then Press OK.

If you prefer that your device has a private and remote Access, you can change the Account Type to Cloud and register a new user by pressing the option in blue.

The image shows a screenshot of a VMS (Video Management System) login dialog box. The dialog has a title bar with the text "VMS" in a rounded rectangle. Below the title bar, there is a form with the following elements:

- An "Account Type:" label followed by a dropdown menu showing "Cloud".
- A "UserName:" label followed by a text input field containing the text "admin".
- A "Password:" label followed by a password input field with six black dots.
- A checked checkbox labeled "Remember Password".
- A link that says "Don't have an account? [Register](#)".
- Two buttons at the bottom: "OK" and "Cancel".

It will redirect you to the website <http://www.xmeye.net/index> and you will have to press Register again to enter the screen where you will create an account.

Cancel

On the Main Screen you can see the settings and different options of the app.

To add a new device, press the Device Manager option.

Press Manual Add and enter the data of your DVR.

The screenshot shows the VMS Device Manager interface. At the top, there is a navigation bar with 'VMS', 'Home', and 'Device Manager' buttons. Below this, there are two main panels. The left panel is titled 'The following devices have been found:' and contains an empty table with columns: Name, Cloud ID, IP/Port, Vendor, and Group. Below this table is a 'Search Again' button. The right panel is titled 'The following devices have been added:' and contains an empty table with columns: Name, Cloud ID, IP/Port, Group, and Status. Between the two panels are 'Add' and 'Remove' buttons. At the bottom right of the right panel, there is a checkbox labeled 'In order to login device, modify ip automatically' and a 'Manual Add' button. The 'Manual Add' button is highlighted with a red box, and a red arrow points to it from the right.

The following devices have been found:

<input type="checkbox"/>	Name	Cloud ID	IP/Port	Vendor	Group
--------------------------	------	----------	---------	--------	-------

In order to login device, modify ip automatically

The fields you will have to fill are the following:

Device Name: Describing Name,
for example: home, office, etc.

Login Type: Select CloudID

Cloud ID: Enter the Serial Number of your DVR.

UserName: by default, admin

Password: by default, leave it blank

Vendor: by default, is XM

Press OK.

Add Device

Device Name:

Group:

Login Type:

Cloud ID(Serial NO):

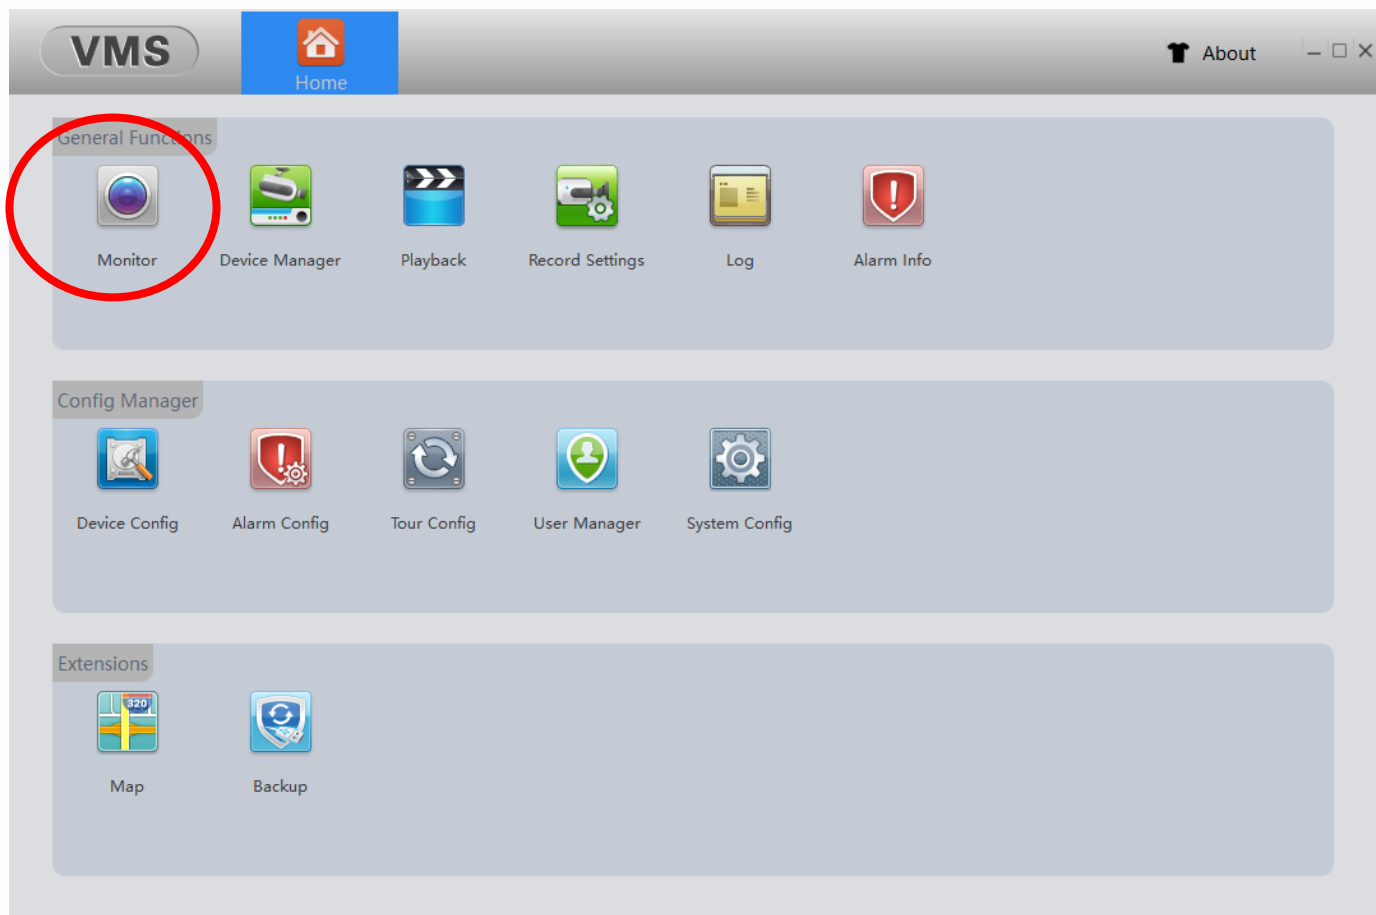

UserName:

Password:

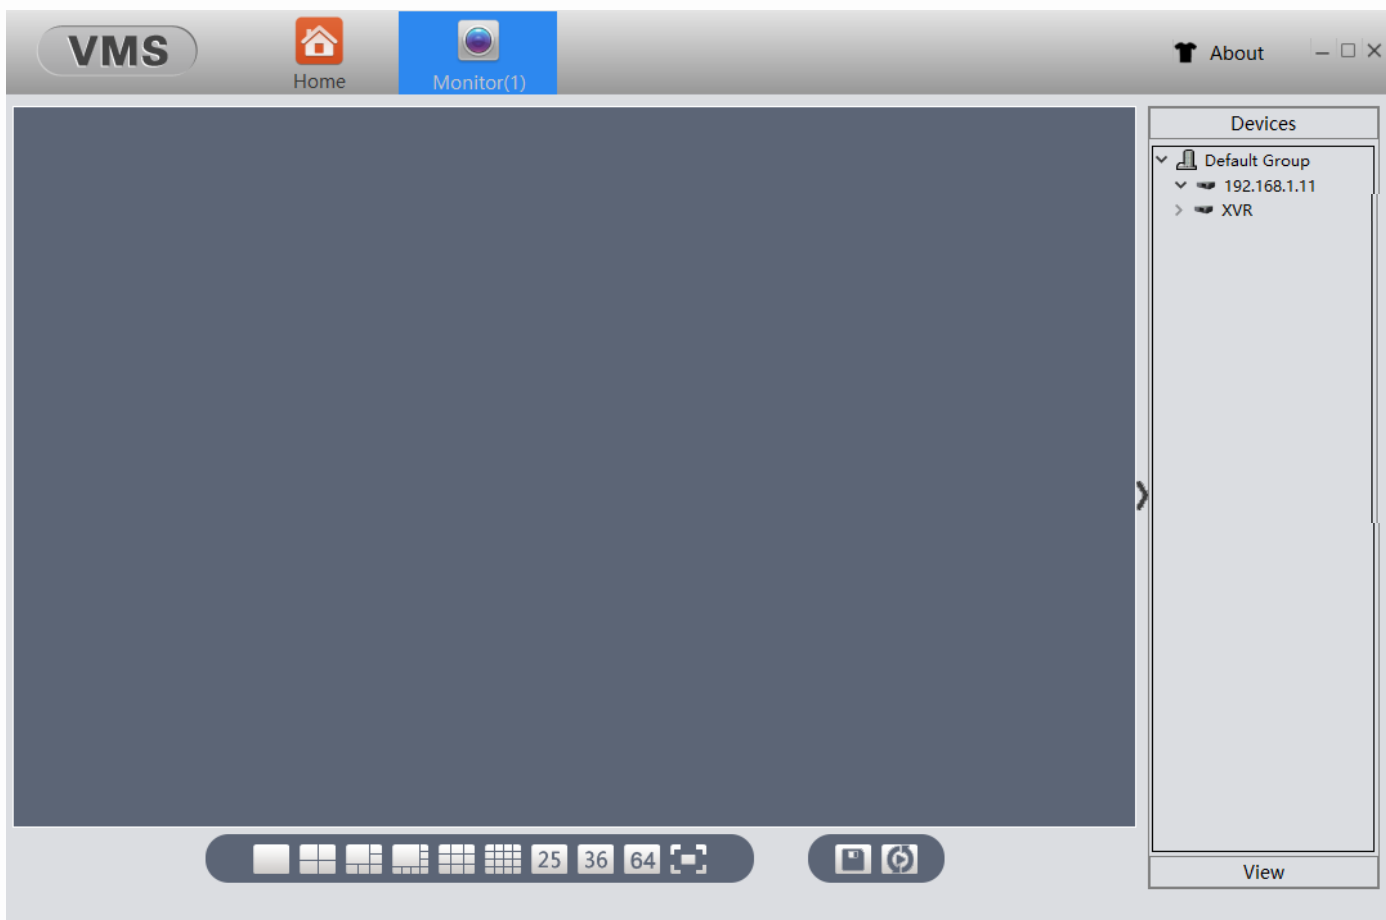

Vendor:

Note: If the Access of your DVR was set with a different password, you have to write it in the Password field.

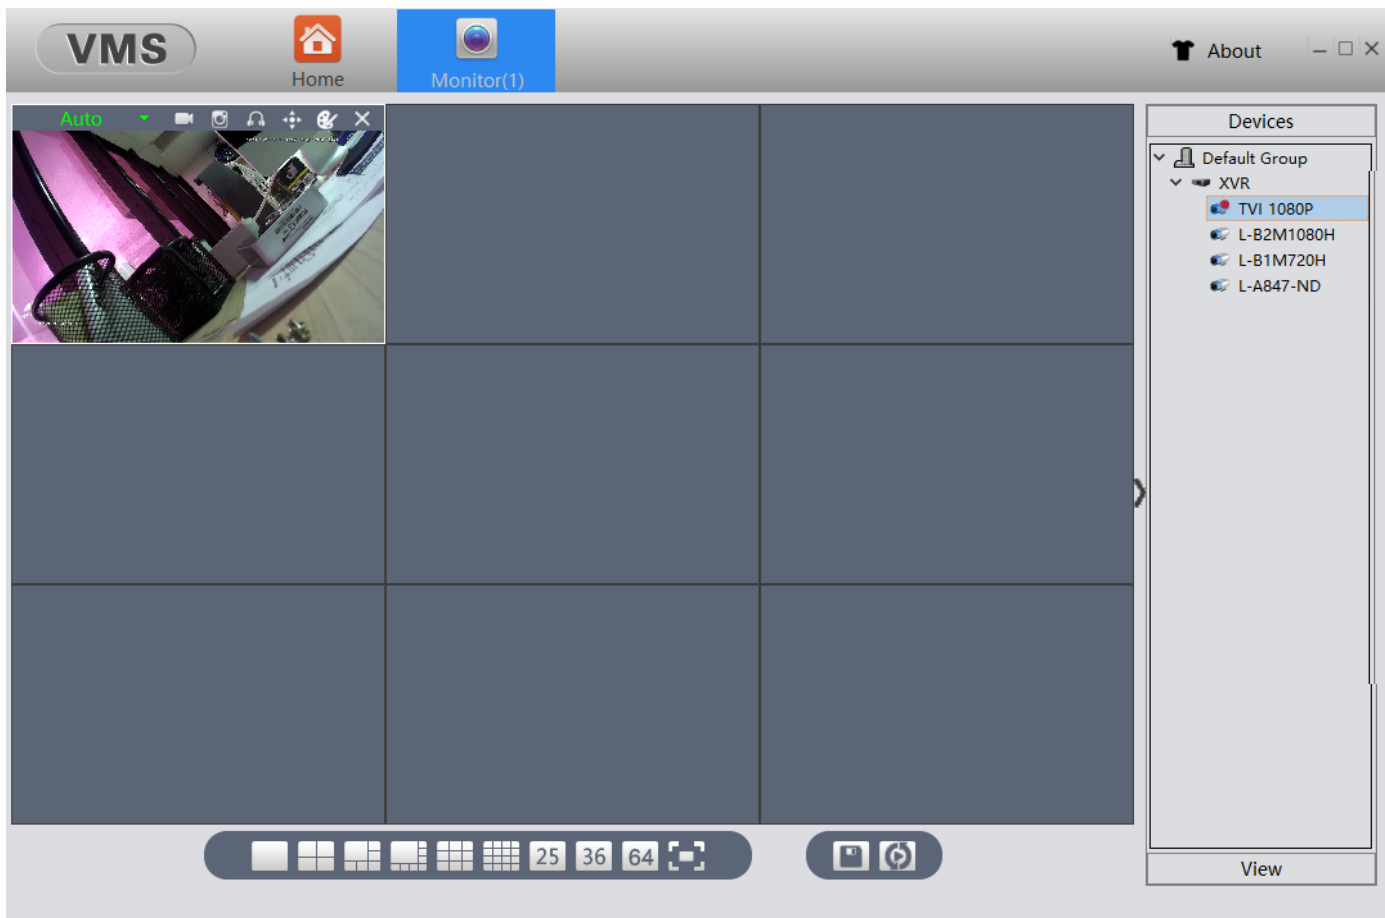

Close the Device Manager section and enter in Monitor to remote view your device.

Your device should appear on the right list of the screen, open it and activate the camera that you want to monitor individually or all the cameras by selecting OpenAll By Main Stream or OpenAll By Sub Stream.

Press right button on the camera if you want to activate and select Main Stream (high definition) or Extra Stream (medium definition).

You have finished setting up your DVR on VMS through your PC.

SECCIÓN ESPAÑOL

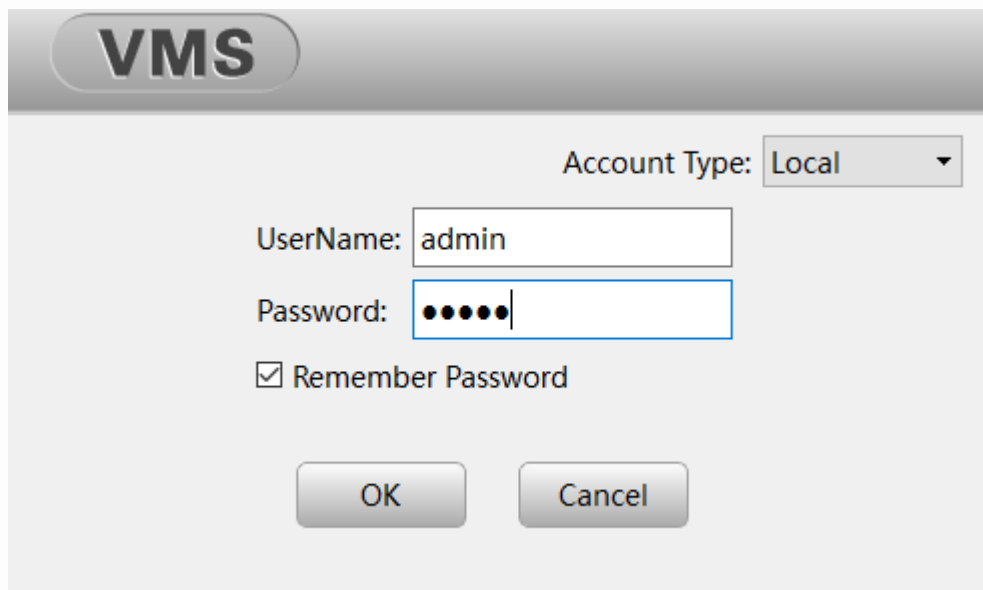

Debe ingresar en la aplicación con los datos por defecto

Account Type (Tipo de cuenta): Local

User Name (Usuario): admin

Password (Contraseña): admin

Si desea que su equipo recuerde los datos de acceso en posteriores ocasiones, active la opción Remember Password (Recordar Contraseña).

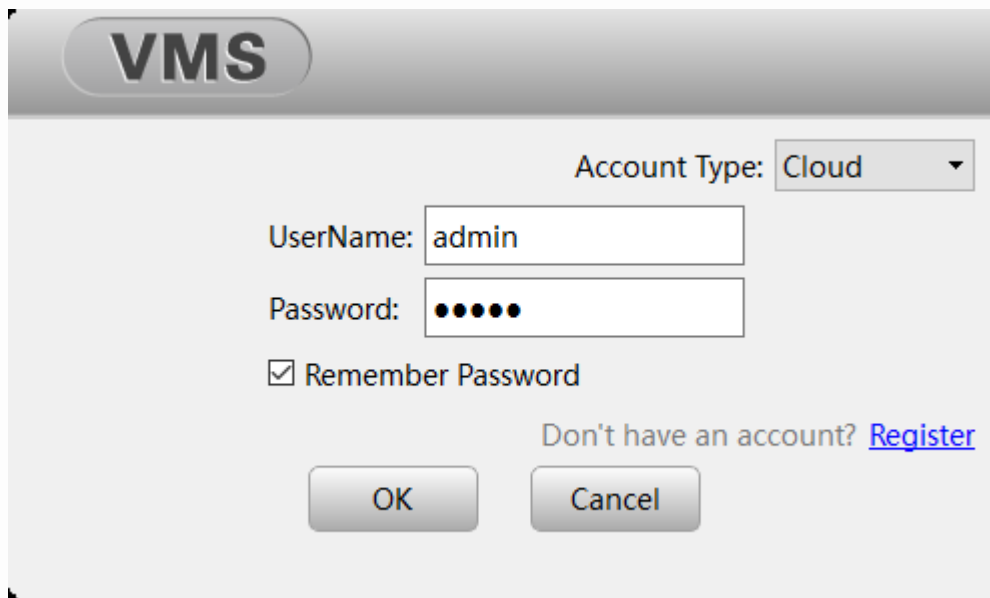

The image shows a login dialog box titled "VMS". It contains the following elements:

- Account Type:** A dropdown menu set to "Local".
- UserName:** A text input field containing "admin".
- Password:** A text input field containing five black dots, representing the password "admin".
- Remember Password:** A checked checkbox.
- Buttons:** "OK" and "Cancel" buttons at the bottom.

Presione OK.

En el caso que prefiera que su equipo sea de acceso privado, puede cambiar el Account Type (Tipo de Cuenta) como Cloud (Nube) y registrar un usuario nuevo presionando la opción Register (Registro).

The image shows a dialog box titled "VMS" with a grey header. The dialog contains the following elements:

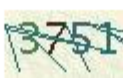

- Account Type:** A dropdown menu currently set to "Cloud".
- UserName:** A text input field containing the text "admin".
- Password:** A text input field with five black dots representing a masked password.
- Remember Password:** A checkbox that is checked, with the text "Remember Password" to its right.
- Register Link:** A blue, underlined text link that says "Don't have an account? Register".
- Buttons:** Two buttons at the bottom: "OK" on the left and "Cancel" on the right.

Se redireccionará a la dirección web <http://www.xmeye.net/index> donde debe presionar nuevamente Registrar para ingresar a la pantalla donde debe ingresar sus datos.
